

# Valve Clinic

The FirstHealth Valve Clinic located in Pinehurst, combines the expertise of cardiologists, interventionalists and surgeons to provide referring physicians and their patients with focused, prompt assessments and treatment options. This collaborative clinic offers patients with complex valvular disorders exemplary, multidisciplinary care in a one-stop arrangement of cardiovascular specialists. When a patient is referred to the Valve Clinic, requests for prior diagnostic studies and all necessary subspecialist appointments are arranged. Most patients spend only an afternoon consulting with Valve Clinic doctors. The referring physician receives a thorough report outlining the team's findings and treatment recommendations.

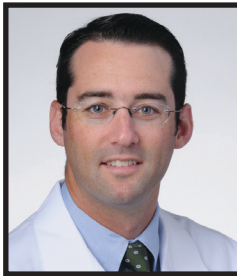

The goal is to deliver a focused and well-organized patient experience that provides a comprehensive evaluation and clear communication about the severity of valve disease and all appropriate therapeutic options. Valve disorders that may be evaluated include:

- Aortic stenosis
- Pulmonary stenosis
- Mitral stenosis
- Mitral regurgitation

The FirstHealth Valve Clinic is led by a team of cardiovascular surgeons, cardiologists and other cardiac specialists.

Stephen Davies, M.D.

Peter Ellman, M.D.

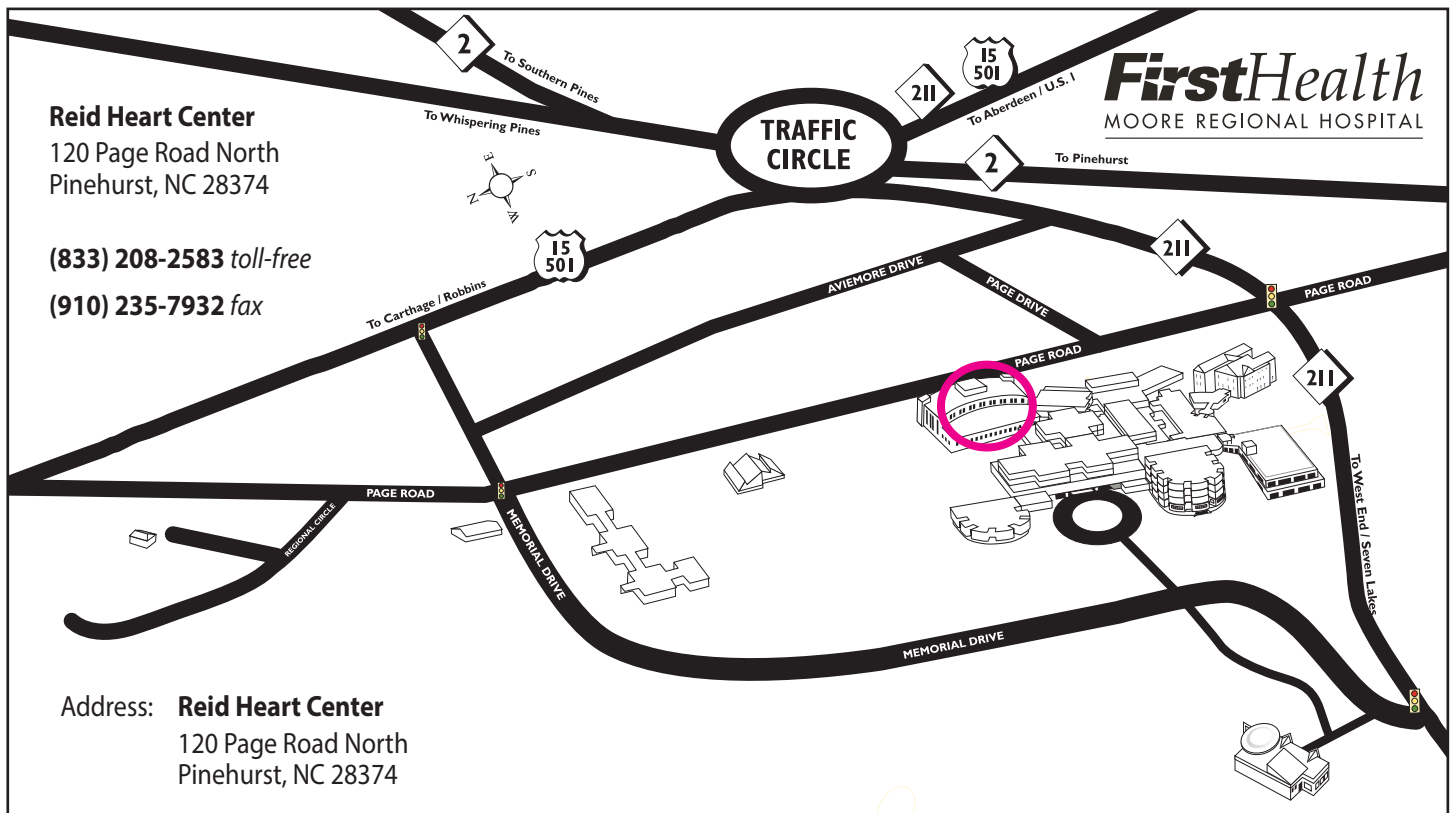

William L. Harris, M.D.

Sun Moon Kim, M.D.

William T. Kitchens, M.D.
