

Cancer: Radiation Oncology

The FirstHealth Cancer Center on the campus of Moore Regional Hospital treats more than 700 new Radiation Oncology patients annually. Radiation Oncology offers a full range of services including cutting-edge technologies typically reserved for major teaching and research facilities.

Services Available:

External Beam Radiation Therapy for all cancers, including:

- Volumetric Modulated Arc Therapy (VMAT)
- Intensity-Modulated Radiation Therapy (IMRT)
- Image-Guided Radiation Therapy (IGRT)
- Stereotactic Radiosurgery (SRS)
- Stereotactic Body Radiation Therapy (SBRT)

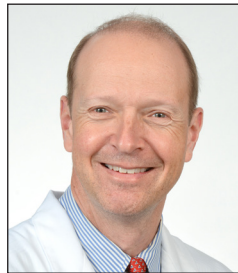

Internal Beam Radiation Therapy

- High-Dose Rate Brachytherapy (HDR)

To refer patients for a consult, call (910) 715-1056. Please give the patient a copy of this form to bring to his/her appointment.
