

Dental Care Centers

The FirstHealth Dental Care Centers provide dental care for children from birth to 18 years who receive Medicaid, Health Choice or are uninsured and qualify by income level.

In addition to routine dental care, the centers promote disease prevention, early detection, intervention, and provide care for dental emergencies.

Early morning, Saturday and same day appointments are available.

Services include:

- Exams
- Cleanings
- Preventive Dental Sealants
- Fluoride Varnish Preventive Treatment
- Silver Fillings
- White Fillings
- Extractions
- Spacers
