

# Infectious Diseases

Infectious disease specialists at FirstHealth are available to see patients on referral from primary care physicians, other medical specialists and select self-referring patients. Our physicians are experienced in the evaluation and treatment of a wide range of infectious processes including:

- Complicated skin and soft tissue infections
- Osteomyelitis
- Joint and prosthetic joint infections
- Complicated urinary tract infections
- Fevers of unknown origin
- Tuberculosis and atypical mycobacterial infections
- Complicated pneumonia
- CNS infections including meningitis
- Suspected primary immunodeficiency
- Suspected travel-acquired and exotic infections

Paul Jawanda, M.D.

Gretchen S. Amoczy, M.D.

In addition, physicians can refer any patient for whom they feel an evaluation by an infectious diseases specialist is indicated. After seeing a patient, our physicians promptly communicate with the referring physician and coordinate treatment and follow-up as needed.

Our physicians are available for telephone consultations regarding patients with infectious diseases.

Janet S. Kozel, PA-C
