Finance Solutions

**Assisting you
with your
financial
recovery so you
can focus on
your medical
recovery.**

At Mosaic Finance Solutions we understand that when you enter the

hospital you have several concerns, including the restoration of your health and how you will pay for the care that you receive.

To help ease the concern of how you will pay for your health care, Mosaic Finance Solutions offers you affordable monthly payments for an extended period of time. You can pay the account with convenient monthly installments which will be 2.5% of your highest account balance, or a \$25.00 minimum payment, whichever is more.

NOTE: If you pay your account balance in full within 30 days, Mosaic Finance Solutions will waive the finance charge.

To get started, just ask your health care provider for a Mosaic Finance Solutions consumer credit agreement. This open-ended charge account will allow you to keep your health care balances separate from other debt.

Mosaic Finance Solutions solves the problem of finding an affordable method to pay for medical care.

Mosaic Finance Solutions helps make healthcare more affordable because it extends the total amount you are responsible for into smaller monthly installments.

Mosaic Finance Solutions lets you arrange financing without disturbing other lines of credit.

Mosaic Finance Solutions allows you to make payments without affecting other purchases you need to make. A fresh line of credit is established for payment of medical care costs. You avoid withdrawing from your savings account, adding to a bank loan, or jeopardizing other lines of credit.
