

# Obstetrics & Gynecology

## Lee County

We are dedicated to caring for women's unique needs, focusing on individualized health care, patient education, and shared decision-making with our patients. Our physicians are either board certified or board eligible in the specialty of obstetrics and gynecology as well as Fellows in the American College of Obstetrics and Gynecology. Each of our physicians consistently exceeds state and organization requirements for continuing medical education.

**FirstHealth Obstetrics and Gynecology provides a range of services to include:**

- Management of routine pregnancies, ultrasounds, childbirth education, nutritional guidance, and lab work are all available
- High-risk pregnancies are jointly followed by our physicians so that multiple approaches to care can be formalized in conjunction with the FirstHealth UNC Maternal-Fetal Medicine program
- Diagnosis and treatment of all common gynecological problems
- Evaluation and treatment of infertility
- Vaginal and abdominal hysterectomy including laparoscopic-assisted and robotic assisted surgeries
- Evaluation and treatment, both surgical and non-surgical, of female incontinence including stress urinary incontinence.
- Preventive medicine and patient education regarding routine gynecological care
- Diagnosis and treatment of other female reproductive system disorders
- Diagnosis and treatment of breast disorders
